

Initiatives and Objectives

The Vermont AFP Board of Directors invites you to attend *your* annual meeting.

The Vermont Academy of Family Physicians invites all primary care physicians and practitioners to a great conference with outstanding speakers. The topics are very relevant to our day to day practice, and the presentations will encourage thought provoking discussion. In addition, we are pleased to host Dr. Glenn Stream, from the American Academy of Family Physicians. We have a chance to hear how our concerned ideas are being implemented on a national level and to understand the support the Academy can give us in Vermont.

This continues to be a challenging time for primary care. We in Vermont have a unique opportunity to work together and influence changes. This conference offers us an opportunity to share information, strategies and plans. Come to the conference, get valuable CME at a great price, and meet and network with your colleagues.
